**Application
Components -
State Application
to Federal
Awarding Agency**

The application:

- Can be no longer than 30 pages (not including the mandated forms and tables of content.
- Title Page
- Abstract Page
- Project Description
- Budget and Proposed Budget Justification
- Environmental Planning and Historic Preservation (EHP)-National Environmental Policy Act (NEPA) requirements—**PLEASE SEE BELOW**

As part of an applicant's package, and under their description of their program activities, applicants are required to provide detailed information on the activities to be conducted, locations, sites, species and habitat to be affected, possible construction activities, and any environmental concerns that may exist (e.g., the use and disposal of hazardous or toxic chemicals, introduction of non-indigenous species, impacts to endangered and threatened species, aquaculture projects, and impacts to coral reef systems). In addition to providing specific information that will serve as the basis for any required impact analyses, applicants may also be requested to assist NOAA in drafting of an environmental assessment, if NOAA determines an assessment is required. In some cases if additional information is required after an application is selected, funds can be withheld by the Grants Officer under a special award condition requiring the recipient to submit additional environmental compliance information sufficient to enable NOAA to make an assessment on any impacts that a project may have on the environment.

**Grant
Requirements,
Restrictions and
Conditions**

- Proposal must be submitted by the state, territory or possession, or tribal government.
- State must submit application via Grants.gov.
